EXPERIENCE

Software Engineer Intern - Mobile Applications (FinTech)

PayMedia Pvt Ltd – Colombo, Sri Lanka

17 Mar 2025 – Sep 2025 | Full-time

Junior Software Engineer - Mobile Applications (FinTech)

PayMedia Pvt Ltd – Colombo, Sri Lanka

17 Oct 2025 – Present | Full-time

Company Overview:

PayMedia is a rapidly evolving Financial Technology (FinTech) company in Sri Lanka, focused on delivering innovative software solutions for banks and financial institutions.

Key Achievements:

- Developed and deployed **mobile banking applications** using Flutter, enhancing client accessibility and engagement.
- Optimized existing mobile banking applications to improve performance, stability, and user experience.

Technologies & Tools:

Flutter, Dart, Firebase, API Integration, Git, Android studio

PROJECTS

SecureBank - Production-Grade Mobile Banking Platform

[GitHub Link](#) 08/2026 - Present

- Built a full-stack banking app with biometric auth, encrypted local storage, certificate pinning, and offline-first sync with conflict resolution - Designed and deployed a gRPC backend to Kubernetes using GitOps (ArgoCD), secured with Istio mTLS, with Prometheus/Grafana observability - Automated testing and deployment via GitHub Actions and Fastlane, with Crashlytics/Sentry integration

(Flutter, Dart, Isar, gRPC, Node.js/Go, Kubernetes, ArgoCD, Istio, Prometheus, GitHub Actions, Fastlane)

Pet Pal – Comprehensive Pet Care App with Community platform

[GitHub Link](#) 08/2024

Pet Pal is a mobile app designed to help pet owners manage their pets' health and well-being.

(Flutter, Dart, Firebase, Figma)

Web based system for Vehicle Service Management System

[GitHub Link](#) 02/2024

Full-stack Vehicle Service Management System Web Project

(MERN Stack, JavaScript, Tailwind CSS, VITE react, Firebase)

SUMMARY

Software Engineer with 1.5+ years of hands-on experience building and optimizing mobile banking applications for a FinTech company, using Flutter and Firebase. Promoted from Intern to Junior Software Engineer within six months for consistent delivery and ownership. Skilled in end-to-end mobile app development, API integration, and performance optimization, with additional working knowledge of cloud and CI/CD tooling. Looking to bring this experience to a product-focused engineering team.
